

FOR HER *Future*

5TH ANNUAL GALA

Dear Friend,

It is with great pleasure that we invite you to join us for a very special and important event: The 5th Annual For Her Future Gala. The theme of the night is, "Creating Spaces for Women to Thrive," and will be hosted at The San Antonio Botanical Gardens on Friday, September 16, 2022, to benefit For Her, a 501(c)(3) nonprofit.

All proceeds from the gala will fund our programs which offer peer support, licensed professional counseling, educational workshops, and practical resources to women in the community at no cost that would otherwise not be able to access services.

Our programs are designed to advance women toward autonomy, self-sufficiency, and overall holistic well-being in order to improve their quality of life while positively impacting their families and surrounding community. Women who receive our services feel supported, see breakthroughs in their mental health and begin working towards financial independence.

A prime example of success can be seen in Andrea's story. When her abusive ex-husband fled the U.S., he left her alone with two young children and no home, friends, or family in the country. For Her provided her with resources, peer support, and licensed professional counseling. Now, Andrea has friends, a burgeoning support system in the U.S., and is looking to become an entrepreneur.

We'd like to invite you to make a difference in the lives of women and youth in the community by becoming an event sponsor at one of our various giving levels. We are honored by the contributions from our past sponsors and supporters including Frost Bank, Mays Family Foundation, Cavender Auto Group, D'Ann Harper Coldwell Banker, Structuretone, and many more.

Please see the giving levels and benefits enclosed to see how you can best support For Her. If you have any questions about sponsorship or would like more information about our programs, please contact me at kayla@iamforher.org or 210-201-0066 x4.

With hope and gratitude,

Kayla Carter
Founder & CEO
For Her
